

Johan de Witt

Johan de Witt was born on September 24, 1625. And he died on August 20, 1672.

his father was called Jacob de Witt and his mother Anna. He has two years elder brother Cornelis de Witt

He had several things in years.

functions:

1650 - 1653 pensionary of Dordrecht

1653 - 1672 Counselor of Holland

1660 - 1672 Keeper of the Seals

1661 - 1672 governor of borrowing

He also helped Michiel de Ruyter in his fleet to the English teverslaan.

Johan de Witt was ambushed by saying that his brother wanted to talk to him. After Johan wanted to leave the prison for half an hour, but it was made difficult to him by a large crowd. When they were dead, all organs and body parts are taken out and distributed among the people who have the forests. And when they were hung on a kind of wooden pole.
